Education

- B.Tech – Computer Science and Engineering** 2023–Present
Sardar Vallabhbhai National Institute of Technology, Surat

PROFESSIONAL EXPERIENCE

- SAP System Analyst Intern** Jun. 2025–Jul. 2025
Al Mulla Group, Kuwait
Certificate
 - Developed and deployed a vendor management web platform from scratch, enabling onboarding, profile management, and reporting for 17,000+ vendors; reduced manual processing by 40%.
 - Integrated SAP systems via APIs for seamless enterprise data flow and made it secure.
 - Collaborated with 5+ cross-functional teams in Agile sprints to meet milestones ahead of schedule.
 - Used tools and frameworks such as PHP Laravel, MySQL, API etc.

PROJECTS

- Vehicle Detection for Traffic Safety Using YOLO** Youtube | Github
AI project, NIT Surat
 - Used YOLO and Deep Sort for real-time object identification and tracking vehicles.
 - Went in depth with deep learning, computer visison and neural networks.
 - Detects all types of vehicles and give a warning signal if any safety rules violated.
 - Tech Stack Used: Python, Arduino IDE, YOLOv8.
- Distributed Sharded Storage with Fault Tolerance**
DC group project, NIT Surat
 - Built a distributed sharded storage system with fault tolerance using React, Node.js, Express, Redis, MySQL, Docker, and Kubernetes.
 - Implemented file sharding and cross-replication across multiple storage nodes for high availability
 - Designed a central orchestrator to manage file splitting, distribution, and reconstruction
 - Ensured data recovery during node failures using replication strategies in a containerized microservices architecture

TECHNICAL SKILLS & TOOLS

- Languages:** Python, C/C++, Java, JavaScript, TypeScript, Ruby, Go, ABAP, Assembly.
- Frameworks/Libraries:** ReactJS, Tailwind CSS, PyTorch, Spring Boot, Angular, Laravel, NodeJS.
- Databases:** MySQL, MongoDB, Firebase Firestore.
- Tools & Platforms:** Git, GitHub, Linux, AWS, Azure DevOps, Imgur API, Arduino IDE.

**Intermediate proficiency*

AWARDS AND CERTIFICATION

- GDSC Design Week 2025**, 3rd place among 50+ participants.
- NEXUS Web Wonders 2024**, Participated as a team in web wonders competetion held by Nexus SVNIT.
- Blockchain Masterclass**, Certified by Centre for Finance, Technology and Entrepreneurship, 2025.
- Postman API Fundamentals Student Expert**, Certified by Postman, 2025.
- Intro to Machine Learning**, Certified by Kaggle, 2025.

POSITIONS OF RESPONSIBILITY

- Member at Literary Affairs Committee, NIT SURAT: I gained communication and public speaking skills, along with leadership and teamwork through debates and event organizing. Jan. 2025–Present
- Memeber at NEXUS Cell, NIT SVNIT: I gained practical skills in coding, problem-solving, and emerging technologies through projects and competitions. Jan. 2025–Present

KEY COURSES TAKEN

- Data Structures, System Software, Design and Analysis of Algorithms, Distributed Computing, Database Management Systems, Discrete Mathematics, Object Oriented Programming, Operating Systems, Computer Networks, Artificial Intelligence, Machine Learning, Computer Organization, Microprocessor Interfacing Techniques, Machine Learning, High Performance Computing, Optimization Methods, Finite Automata, Social Network Analysis
